

Welcome to Room B117

October 16 - 20

This week at school!

- This week we will read fun and silly Halloween stories. We will learn to sequence the events in a story. This is an important skill to further develop reading comprehension.
- In Phonics, we will focus on building CVC words using dry erase boards and magnetic letter boards. To help us hear each sound we break words apart by "chopping" the sounds up our arm. You may see your child working on spelling words using this strategy.
- In Math, we will work on data collection using tallies. Our data will reveal if students are *or* are not afraid of spiders. Students will continue to work on number formation of numerals 0-10.
- In Science, we will learn about nighttime animals. Vocabulary: nocturnal.
- In Handwriting, we will work on writing lower-case letters.

Important Reminders

- 10/19 - No school for students (records day).
- 10/27 Halloween Party
- This week's feature color is purple. Please have your child wear **purple** on *Friday*.
- With the colder weather upon us, please label all clothing with your child's name including their coat, gloves, hat, boots, snow pants, scarves, etc. A piece of masking tape works fine if you do not want to write directly on clothing.
- Please sign up for a conference if you have not done so already.
- Keep reading and coloring a pumpkin each evening to earn a certificate for a free personal pan pizza from Pizza Hut.
- Check our website to see our class in action.
