

Welcome to Room B117

April 29 – May 3

This week at school!

- This week we read books with rhythm and rhyme that allow children to participate in the story through repetitive word patterns and rhyme.
- In Reading, students will review all introduced hunks & chunks. (oo, ar, th, sh, ch, wh, all).
- In Writing, we will work on blank book writing. Students will make up their own stories by writing text and adding illustrations. This will be a more relaxed approach since they finalized their manuscript for our published book.
- In Math, students will explore and compose teen numbers and understand that each of these numbers is a group of ten and some more.
- Math vocabulary: count on, digit, teen numbers, number bond.
- In Science, we will learn about insects.

Sight Words

were	they	their	she	we	says
goes	go	so	no	your	want
what	have	you	was	are	
look	book	from	be	me	he
see	of	do	to	said	as
a	and	I	the		

Homework

- ✓ HFW practice (were)
- ✓ Read book-in-a-bag
- ✓ I Can Make Teen Numbers

Important Reminders

- With warmer weather upon us, please remember to send in a water bottle with your child each day.
- We are sending our manuscript off to our publisher at the end of the week! We cannot wait to see our final product from these amazing authors and illustrators!
- 5/17 – Our class will visit the Natural History Museum.
- With your help, we will be ordering our caterpillars soon. We will study their rate of growth, habits, watch them develop a chrysalis, and finally hatch. This is an exciting time for us! Afterwards, we will set our butterflies free!
- Practice all high-frequency words daily if your child is not fluent reading them by sight. Many students struggle with the words: *they, their, says, goes, what, want, was, your*. If you need flashcards, let me know.

• Check our website to see our class in action.
