

# Welcome to Room B117

## September 18 - 22

### This week at school!

- This week we will read stories about why going to school is an important part of growing up. We will discuss ways that make school fun, like making new friends and being part of a community as well as the understanding that some things are scary at first when it is unfamiliar.
- In Phonics we will focus on the consonant sound /m/, /t/, /a/.
- In Math, students will count, write, and compare numbers 1-5. During Math Centers we will use dice, ten frames and dot cards to further develop students' subitizing skills, which is the ability to instantly see how many without counting. This skill plays a fundamental role in the development of children understanding number sense leading to higher level addition. We will also continue to focus on proper number formation.
- In Science, students will become scientists! We will examine apples, participate in a taste test experiment, then graph our data. We will also discuss seasonal changes as we slide into Fall.

### Important Reminders

- If you have not already done so, please send in an extra set of clothes for your child in the event of an accident. It is much easier for them to change in our bathroom. If they do not have an extra set, they have to go to the clinic and wait for you to bring up clean clothes. Taking care of it in our room spares them any embarrassment.
- 9/19 Picture Day
- 10/13 - No School NEOEA day.
- 10/27 Halloween Party
- This week's feature color is orange. Please have your child wear **orange** on Friday (see color study letter for details).
- No Fuss Fundraiser 9/18 - 9/29.
- Spirit Week 9/25 - 9/29.
- Your child will come home with a book box this week. This box is intended to hold their weekly sight word books and should be kept in a safe place. Children are encouraged use this collection of books often as they can read each one independently.
- Homework can be done at your convenience and returned by Friday. Encourage responsibility by having your child complete their homework and place in their red folder. This is a great habit to instill in Kindergarten!
- Check our website to see our class in action.
